

COM : Communications orales sans actes dans un congrès international ou national

Equipe BdTIn

- GAZEAU Marie-Aimée, MAUREL Denis, Quels féminins possibles pour les noms de professions ? Application au TAL., Colloque Utopies féministes et expérimentations sociales urbaines. TOURS, 2006.
- TOUNSI Lamia, BOUCHOU Béatrice, LENTE Christophe, MAUREL Denis, Internal Structure Computation of Finite State Automaton. , Automata: from Mathematics to Applications (AutoMathA 2007). Mondello. Italie.
- ESHKOL Iris, GAZEAU Marie-Aimée, MAUREL Denis, Balisage XML des entités nommées et dénommantes du corpus Eslo, CatCod 2008. Orléans.
- MAUREL Denis, FRIBURGER Nathalie, ESHKOL Iris, ANTOINE Jean-Yves, Explorer des corpus à l'aide de CasSys : application au corpus d'Orléans. , LingCorp'2009. Lorient.
- MARCINIAK Malgorzata, RABIEGA-WISNIEWSKA Joanna, SAVARY Agata, WOLINSKI Marcin, HELIASZ Celina, Constructing an Electronic Dictionary of Polish Urban Proper Name, Workshop on Balto-Slavonic Natural Language Processing. Kraków, Juin 2009.

Equipe OC

- J-C. BILLAUT, A new lower bound for the two-machine total tardiness flow shop scheduling problem, 21st European Conference on Operational Research (EURO'06), p. 136, Reykjavic (Iceland), Juillet 2006.
- M. LABANE, A. SOUKHAL, J-C. BILLAUT, Flexible scheduling in cells of a workshop, ECCO XIX - CO 2006 Joint Meeting, p. 43, Porto (Portugal), 11-13 mai 2006
- G. VILCOT, J-C. BILLAUT, A memetic algorithm for a multicriteria flexible job shop scheduling, 22st European Conference on Operational Research (EURO'07), p. 95, Prague (République Tchèque), Juillet 2007.
- TOUNSI Lamia, BOUCHOU Béatrice, LENTE Christophe, MAUREL Denis, Internal Structure Computation of Finite State Automaton. , Automata: from Mathematics to Applications (AutoMathA 2007). Mondello. Italie.
- N HUYNH TUONG, A. SOUKHAL, Due date assignment and just-in-time scheduling on uniform parallel machines, XXI European Chapter on Combinatorial Optimization (ECCO XXI), Dubrovnik (Croatie), 29-31 mai 2008.
- C. PESSAN, L. MENG, E. NERON, Cutting planes for an industrial unrelated parallel machines problem with release dates and tails, XXI European Chapter on Combinatorial Optimization (ECCO XXI), Dubrovnik (Croatie), 29-31 mai 2008.
- A. SOUKHAL, C. LENTE, Two-machine flowshop scheduling problem with overlapping, XXI European Chapter on Combinatorial Optimization (ECCO XXI), Dubrovnik (Croatie), 29-31 mai 2008.
- G. VILCOT, J.-C. BILLAUT, A very fast algorithm for finding non dominated solutions for the bicriteria flexible jobshop scheduling problem, International Federation of Operational Research Societies Conference (IFORS'08), Sandton (Afrique du Sud), 13-18 juillet 2008.
- A. LISSY, P. MARTINEAU, Monitoring scheduling in a Kerrighed cluster, Linux Symposium, Ottawa (Canada), 13-16 juillet 2010.
- G. SAUVANET, E. NERON, H. BAPTISTE, Computation of best-compromise route for cycling, 24th European Conference on Operational Research (EURO XXIV), Lisbon (Portugal), 11-14 juillet 2010.
